

In the Specification:

506
7/11/05
On page 8, replace the ^{first}~~second~~ full paragraph with:

FIG. 2 shows the left side of the device. As may be seen in this view, the device has shoulder straps 14 attached to the frame 12 to allow the operator to carry the device on his back. The orientation and location of the Y-shaped valve 30 prevents the exhaust exiting either of the two exhaust legs 34 or 36 from interfering with the breathing of the operator.
